

Big Picture:

- Quantum deduction document
- Quantum computing course through Toronto
- <https://www.youtube.com/channel/UCCFwiOkwTIMUjVgmfJyYibw>

Applications:

Can be applied to calculate precise future growth rate
(<https://www.youtube.com/watch?v=rPqChN7Zd6o>). I bet this could also be implemented to robustness check the validity of companies claims.

Improvements:

More colors added per personalized knot, a personal color per neural network. More complex data structures, and sound implemented in a form of energy wave throughout the network. Also,

Extra:

Combine this with astrophysicists to improve mining on crypto platforms – and deduce where each bit originates from.
