

“Hi LinkedIn Network! I have a Direct Hire need for Penetration Testing Engineer with our client in Atlanta, GA. Competitive pay and benefits. If you are interested let me know. Or if you know of anyone, we do offer a referral bonus. Thanks so much. #penetrationtesting #engineer”

Hi Jason. I have someone in mind. I will email you their resume. I can uphold the validity of their deeds from earlier projects. The only setback is this individual is bent to get ahead of oneself. More specifically, we worked directly through pandas. We grasped pentesters with anti-gravity quantum foam deployment. Please feel free to reach out with further questions.
