

Big Picture:

https://futurama.fandom.com/wiki/Dark_Matter_Engine#:~:text=Invented%20by%20Professor%20Hubert%20J,in%20a%20matter%20of%20days.

The mechanics behind it:

Similar to the idea of the robotic DNA backpack

Finding the fuel:

The fuel can be inputted from particles, like a vacuum.

Robotics:

- Robotic DNA, similar to fuel (or particles in the nearby atmosphere).

- The cluster of the device could be the magnet
