Core:

BNB (join before they BURN)

Health system BNB:

-insert big block of universities, sub category other universities

---

Gaming BNB:

-Activision blockchain (but right now turn bomb into a buyable binance.us)

Education BNB:

-insert big block of universities, sub category other universities

---

Universal systems:

-insert nations
      -then regions
            -then states (or equivalents)
                  -then cities
                      -then towns
                          -then poverty
Maintain flow between all.. import tech –^

plug universities in at inverse, starting from most selective

---

Empowering/sustaining:

-insert big block of universities, sub category other universities

---

Connecting:

-connect to obama foundation and national parks to integrate #WildForAll

---

Security:
-    Google cloud protection.

Grounding:
-Fairlawn Capital

Movies blockchain:
- Plug in youtube, netflix, etc.

Recruitment:

- There are a few bids for open positions for a network of engineers spread throughout the United states. Perhaps 400 job openings by this summer, that will help scale BNB throughout the US.
